In addition to offering high quality tertiary education, the College of Professional and Continuing Education (CPCE) of PolyU strives to engage in scholarly activities underpinning teaching and learning excellence. As part of PolyU CPCE, CPCECPR was established in March 2021 to promote scholarship of teaching and learning and pedagogic research in the higher education sector.

This inaugural conference aims to offer an exciting opportunity for researchers and educators to engage in insightful discussions on ways to overcome challenges in pedagogical practices caused by the COVID-19 pandemic. Entitled "Embracing the New Normal of Education: Blending Technology into Pedagogical Design", the Conference encompasses the following three themes:

- Online/Blended Learning
- EduTech
- Innovative Pedagogy
